

**REMARKS**

This amendment responds to the office action dated March 27, 2008.

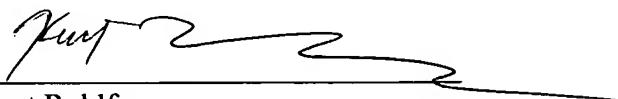

The Examiner rejected claims 1 and 5 under 35 U.S.C. 112, second paragraph, for ostensibly claiming both a product and a process. The applicant has amended each of claims 1 and 5 to claim a method. The applicant therefore respectfully requests that the Examiner's rejection under 35 U.S.C. 112, second paragraph, be withdrawn.

The Examiner rejected claims 1, 3-5 and 7 under 35 U.S.C. § 103(a) as being obvious in view of Sezan et al., U.S. Patent No. 6,236,395. Sezan discloses an information management system for delivering program content to a consumer electronics device, such as a cable set-top box, a TIVO, etc. As part of that system, Sezan discloses several screens of an electronic programming guide.

Independent claims 1 and 5, as amended, recite the limitation of "each video clip and key frame automatically selected by said personal video recorder by jointly analyzing the content of the respectively associated video recorded on said storage, to which said video clip and said plurality of different key frames respectively belong, together with the content of at least one other video recorded on said storage." Sezan neither discloses nor suggests this limitation. Therefore, the applicant respectfully requests that the Examiner's rejection of these claims, as well as dependent claims 3, 4 and 7, be withdrawn.

In view of the foregoing amendments and remarks, the applicant respectfully requests reconsideration and allowance of claims 1, 3-5, and 7.

Respectfully submitted,

Kurt Rohlf
